MLEA PROVIDES AN OT OPPORTUNITY WITH A DIFFERENCE...

MLEA is offering a unique opportunity to work in a stimulating and fulfilling medicolegal Occupational Therapist (OT) role, a position that provides an alternative to more traditional OT practice roles. Medicolegal occupational therapy allows you to bring together your existing clinical or educator experience, culminating in the provision of medicolegal assessments and reports. If you haven't heard of medicolegal work before, don't worry, many people haven't! However, if you are passionate about clinical excellence and achieving fair outcomes for your clients through the promotion of independence and quality of life, medicolegal work could be for you.

If you have an interest in NDIS work, there would also be opportunities available for you to work in MLEA's NDIS Division, if desired. Please indicate this on your application.
